

Aluminum Bending Machine

L130

- Classic Design, Easy Learning
- Multi-Tooth Milling Cutter Multi-Angle Precision Cutting
- Squeezing Arc- Rotating Shaft Squeezing Arc, Does Not Scratch The Material
- Beat Arc-High Molding Degree, Specially Designed For Small Radian

A130 Squeezing Arc

Aluminum Profile Channel Letter

Trimless Channel Letter

Aluminum Epoxy Channel Letter

Liquid Acrylic Channel Letter

Working Principle	Auto Feed, Auto Slot Auto Bend
Applied Material	Flat Aluminium, Aluminium Profile, Channelume
Applied Material	Flat Aluminium
Material Height	≤ 130mm
Slot Degree	45-135° ∠
Material Thickness	0.4-1.0mm
Slot Type	Double Size Swing Slotting

Weight	240KG
Control Type	Computer
Total Power	1500W
File Format	DXF, PLT (Coreldraw)
Machine Size	1250*720*1300mm
Packing Size	1350*820*1500mm
Voltage	220V
